ARTHUR SIMKINS, EDITOR.

WEDNESDAY, APRIL 20, 1859. zer See Page First, for original matter, and an

interesting variety of selections.

Withdrawn.

We are authorized to announce, that Mr. LEWIS COLEMAN withdraws his name from the candidacy for Clerk of Edgefield District.

Fire.

The roof of Maj. S. S. Tompking's house (late the Carolina Hotel) in this village, was ignited by a spark from the chimney on Monday morning last; and for a short time there was considerable alarm. But the active assistance of many citizens was immediately at hand, and the flame was speedily extinguished. The quick observation and ready hand of Mr. TILLMAN WATSON (the energetic young architect engaged in remodelling the building) were principally instrumental in stopping the fire.

Major Tourkins requests us to return his heartfelt thanks to those who were kind enough to volunteer their aid so promptly, not only in extinguishing the fire but in preserving the house and furniture from detriment.

Go to Sullivan's.

And there will you behold a multitude of good things, in the wearing line, in the eating line, in ed for some superb purpose of usefulness. The the useful line, and in the ornamental line. Every one knows that the Messrs. Sullivan sell as cheap as the cheapest. But every one does not know the very superior quality of the stock they now have on hand. The only way to form a correct iden of it, is to go and sec. Go to Sullivan's, and examine all their elegancies and comforts for

Thanks.

To Mr. A. J. Suyly for that present of swee potatoes, well kept and sweet, and especially acceptable these scarce times. Call at HARRISON'S and find a quantity of the same sort, at your service for eash.

Beautiful Silks.

If the ladies wish to avail themselves of a good apportunity to purchase some very choice goods at low rates, they would do well to drop in at Messrs BLAND & BUTLER'S temporary store at the corner next to the Sullivans. Chances there to draw prizes.

Old Times Revived.

Any one who will take the trouble to ascend the staircase between BRYAN'S and PENN'S Brick Stores, and turn in at the first right hand door, will there find our old friend and fellow-citizen, H. A. GRAY, snugly onsconced behind a well-arranged counter, with the air about him all redolent of rosee and pleasant thoughts, ready to do every manner of work in his department with his accustomed skill and dispatch. Call on the artisan in his sanctum, and be remedied in all your watch and jewelry deficiencies.

Our readers will please notice Messra Hupson & Cognun's Bacon advertisement. They have in store a lot of Tennessee Bacon which i represented as being A No 1.

Acquital of the Echo Prisoners. The trial of the crew at Charlestor, of the Slaver Echo, was closed on Saturday last. The verdict of the Jury was " not guilty."

Prof. LaBorde's History. The Charleston Courier speaks thus of this work,

College is now in press and will soon be issued.

It is expected eagerly by many graduates and friends of the College, and by the many friends of the esteemed author." Mr. J. Kauffer.

We ask attention to the splendid advertisement of Mr. J. KAUFFER, of Augusta. It is in keeping with the dimensions of his magnificent store and the enlarged principles upon which he trades. KAUFFER's is now ranked as one of the very best dry-goods houses of the South. It is a peculiar facility to the people of Edgefield District, to have so complete an establishment within their reach.

More of the Good Things of Life. Mr. WM. HARRISON is continually receiving

variety of substantial groceries, and delicious confectioneries, at his store adjoining this office,-not to mention certain comforting potations in the way of porter, ale and soda-water, all of the finest quality. We observe in his cellar to-day, among other things, a lot of choice Tonnessee bacon. Call quick, as it is going rapidly. Price only 121 eents hog around. Our Navy.

Some time since, having had occasion to allude to our present naval force, we put down the whole number of ships in the service at about fifty. This was an error. An authentic paper from the Department shows that we have 10 Ships of the Line, 10 Frigates, 21 Sloops of War, 3 Brigs of War, 1 Schooner, 25 Steamers, 3 Store vessels, and 5 Bomb vessels, making an aggregate of 78. Since 1845, the number of seamen has been limited by law to

General Ayer's Oration. Before us is a copy of an Oration by General L.

M. AYER on the subjects of " Patriotism and State Sovereignty," delivered before the two societies of the South Carolina College in December last. It is the best effort of its author, abounding in wholesome truths and eloquent sentiments. Wheat.

A farmer gives us the information that the Rust

has attacked wheat in several parts of our district. As yet it is confined to the blade; and there is hope that the heads may be formed before it spreads Lut generally with us, the news of the wheat

crop is highly cheering. From the rich Cambridge lands, we receive accounts of almost unpreceden ted crops. GENERAL DUNOVANT, of that vicinity, can show a field which some think has never been surpassed in that fertile neighborhood. Even our piney-woods wheat is not bad; and this grain is known to be least of all adapted to our loose and silicious soil. Upon the whole, in spite of the Rust, we have good reason to calculate upon a very full crop for this District.

Cool Again.

The Dutch are right again, as usual, and the full moon of April has brought another decidedly cool specimen of mountain weather. On Monday morning FARRENBEIT stood at 42°, while the temperature had the seeming of a few degrees lower. Fires were requisite to comfort, and winter clothing was again fully donned. But the Dutch soothsayers missed it just a little. There was no frost and no damage to vegetation except the chilling (not killing) of a little cotton that happened to be up in a few localities. This will of course be afflicted with what cotton-planters denominate "the sore shin." In other respects, the fields, orchards and gardens have come unscathed through the long expected full moon of April.

Disasters of the Sea.

Whatever sailors may say about the security of " A life on the Ocean Wave" as lustily as ye may, "homes on the rolling deep," while we cluster of the age. around our stationary hearthstones at eventide, be faring life has its grandeur and its delights. But ally till the termination of the South Carolina has it not also its terrors and disasters? Let him story. who doubts read the subjoined summary of American vessels lost during the past year:

Scheuners, 136. Their total value, \$4,471,000.

kid palms, we would be obliged to the finder if he bales of merchantable cotton for sale. There is a and shoulders absolutely free. Pretty and conwould return them.

Fish No. 1 .- Col. Mims's Mills.

Our introductory fish, for the present season came off on Thursday last at the mill Pond of Col. G. D. Mins. It was a delightful day, and we (that is, ourself and a few others, assisted by came up into the sunlight, in all the rich radiancy of his native coloring! No one, who has not caught one of these fish, can at all realize the exsatisfaction its successful execution spreads over the mind of the angler. One after another did we draw them from their aqueous recepticles, until, as we have said, forty-seven lay floundering in bellies. And so we bade the Colonel good evenwhat a supper!

By the way, is not that a grand old natural Mill Dam. It would appear to have been design- present Confederacy? water power is tremendous, and the means of controlling it, for the working of machinery, extremely easy and cheap. We heard the prediction, that some day a great Factory would be established at this place, and we doubt not its fulfilment sooner or later. The present proprietor, we regret to hear, thinks of selling and removing to another listrict. Here is an opportunity for some enterprizing young man to do well; for, besides the water power and milling facilities which may one lay become a fortune to their owner, there are several hundred seres of fine cultivatable land on an adj ining tract, 70 or 80 of which is rich, black, ottom land.

Traffic with Russia.

The following piece of intelligence encourages hope of a rapidly increasing trade with Russia. We are sure that our Minister at St. PRTERSBURG will omit no opportunity to advance, in this and every other possible way, the intercourse and traffic between Americans and Russians.

Mr. Miller, American Consul at Hamburg, reports to the Department that the proprietors of the steamers between Lubeck and St. Petersburgh have made arrangements with those running be-tween Hamburgh and New York by which they propose to establish, at very low rates of freight, a direct system of transportation from New York to St. Petersburgh, via Hamburg and Lubeck. It is stated that hithorto the business between the United States and Russia has been transacted at only two seasons-one flect of vessels loaving the United States in the spring in time to arrive in to leave again before the navigation closes. The merchants have, therefore, but two regular comnunications per annum, and their capital is invested about six months in the purchase and hipment of their goods.

The facilities new combined would enable them

o forward goods from New York to St. Petersburgh every fortnight during the season that aavigation is open, by a transit which would conume but three weeks of time.

"Evidently Imperfect." We could wish that the Mercury had picked out ome other words than these to characterize our report of General BONHAM's late speech at this place. If he had said "incomplete," or "brief" or "partial," we should not have minded the circum-" Prof. LaBorde's history of the South Carolina too far. To the extent that we did report our Member's address, it was sufficiently perfect,-at least as much so as such reports usually are,-as much so, we may add, as was the Mercury's report of General HAMMOND'S speech at Beech Island. On the important point of DougLas and his doctrine, the report (though condensed) was accurate. So t was in most other respects, except that it merely indicated one or two heads without attempting to follow the speaker over ground familiar to intelligent readers. One mistake we did make, in saying that Mr. Buchanan vetoed the Homestead Bill; but General B. inadvertently made the same mistake in his speech, and, not receiving his correcion until upon the eve of going to press, we could

only allude to the error in a note which perhaps the Mercury overlooked. This is a small matter, we know, to carp at; but March. our city cotemporaries should remember that we have not in the country the experience, or facilities for making such reports, which they have. And we respectfully suggest that they should avoid supercillious tone towards us. "Evidently imperfect" as was our report, we have the pleasure of saying that General BONDAN had the kindness to commend it as being all that was necessary.

"Publication of Crime." Under this head, the Newberry Conservatist has

paragraph approving the course of the Due West Colescope in excluding from its columns the detailed record of crimes. We join with those excellent journals in doubting the righteousness of such publications, and commend to the profession the sentiments thus expressed by the Conservatist : "We entirely agree with the Due West Telescope. as to the propriety of carefully excluding detailed accounts of every kind of crime from the columns We have long thought that the of our papers. publication of crime tends to the increase of it, and for that reason would be much rejoiced to se reform by the public press in this respect. The fact is, the press has become a complete record of crime; and if the effects of the record continue to nerease, there is danger that more expensive ac commodations will be necessary to the faithful dis-charge of its office. No, brethren of the press let it not be in any sense our office to record crime; leave it to be recorded elsewhere. And then we will be further from pandering to a vitiated public taste, and more employed in cultivating a better state of morals throughout the country. The Telescope, we are glad to see, has proposed the proper course to itself, in excluding such accounts; deserves to be, in other cases."

The Laurensville Herald. This paper has assumed a new and very beoming head. Its letter press also is decidedly fair and prepossessing; and its management is very correct and spirited. The Herald is likely to prove an grant courier in the race of improve-

IMPORTANT TO PLANTERS!

THE RICHMOND FACTORY. RICHMOND COUNTY, GA. Ontinues to manufacture WOOLEN CLOTH at 12½ cents per yard for plain and 16 cts, for twills —finding every material except the wool. The manded to assemble at Red Hill, on Saturday extensive and constantly increasing patronage the Factory has enjoyed for years past, assure the proprietors that the article of Winter Clothing for Negroes, made by them, has not been surpassed by any Cloth made North or South.

Recent extensive improvements and others now being erected, enable us to keep up the standard of the Goods, and to secure an early delivery.

Planters, or others, who may wish to send us week to make the conduction of the conduc wool to be made into cloth, can send it dirty or clean—if washed, it should be done in cold water. and done thoroughly. If sent dirty we charge half cent per yard extra for washing. Burry Worl is not objectionable—the burrs are removed by machinery. The name of the owner should be marked upon every package sent.

Wool sent by Rail Roads in Georgia, Alabama, Tennessee, or South Carolina, to the Augusta Depot, with owner's name, and "Richmond Factery" marked upon it, will be regularly and promptly received, and the Cloth, when made, returned

to the points directed. Each parcel is made up in the turn received.

We would especially urge upon our patrons the great necessity of sending in the Wool as soon as clipped: if this rule is followed, the parties would always be sure of having the cloth in ample time. All instructions to Messrs. FLEMING & ROW-

LAND, our Agents in Augusta, Ga. A. JOHNSTON, President Richmond Factory April 20 Im

MONTGOMERY'S

Celebrated Double Screen ROCKAWAY PREMIUM WHEAT FAN! FRUIE SUBSCRIBER having purchased the Right for this State, now offers to Planters these justly celebrated Fans for cleaning Wheat. This Fan is superior to any thing of the kind now in use, as the number of premiums awarded at different State Fairs will attest. It is simple in its structure, easily rigged, works well, and when out of order, can be repaired by any ordinary me-

grain. For further particulars see Hand Bill, which will be furnished any one desiring such. Cotton Gins and Threshers Also constantly on hand a supply of Cotton Gins, which I warrant to be equal to any made. Also, a lot of Threshers which are so extensively

chanic. It is adapted to cleaning all kinds of

known that I deem it unnecessary to eulogiso them These Machines are all manufactured in this place, by skillful workmen, and of the very best material, and warrented to do what is said for man, Miss C. Warren, E. Wells, Mrs. R. Weatherthem. Any orders for either of the above Ma- ford, Mrs. E. Wells, Dr. L. B. Weaver, 3, H chines, addressed to the subscriber, or left with White, Wm. Walford, 2, E. Wills, 2, J. P. Wills my Travelling Agents, will be promptly attend. John Webb, W. Walton. For all Repairing and Job Work, the Cash will be required upon delivery.

JOHN ENRIGHT.

Abbeville C. II., April 20, BY Virtue of sundry Writs of Fieri Facins to me directed, I will proceed to sell at Edge-field C. II., on the first Monday and Tuesday in THE BEST PLOW YET INTRODUCED. May next, the following property in the following UTLEY'S PATENT COMBINED

SUBSOIL AND TURNING PLOW THE Subscriber announces to the Farmers of Edgefield and Abbeville Districts that he has purchased the right of the above plow for these Districts, and is now prepared to offer samples of the plow for examination and trial. UTLEY'S PLOW is a Southern invention, and all those who appreciate the value of deep plowing and easy draft cannot fail to be pleased with it. The State vs. Alfred Hatcher. A tract of containing one hundred and fifty acres, more or less, adjoining lands of John Jourdan, James Mor-It will break the land nearly twice the depth of any other plow yet introduced with the same draw.

Therefore, it cannot be surpassed as a subsoil plow. ris and bi. T. Fell.

Terms Cash.
